PROFESSIONAL SUMMARY

Computer Science graduate with a strong foundation in Python Full Stack Development, including Django, HTML, CSS, JavaScript, SQL, and REST APIs. Skilled in problem-solving, debugging and developing scalable web applications. Possesses strong analytical aptitude, quick learning ability, and user-centric solutions. Proficient in database management and version control (Git/GitHub). Seeking an entry-level Software Engineer role to contribute technical expertise and grow in a dynamic development environment.

EDUCATION

Bachelors of Technology(B.TECH) – Computer Science Engineering

Malla Reddy College of Engineering for Women, Hyderabad | CGPA: 7.67 | 2026

Diploma – Electrical & Electronics Engineering

Jyothishmathi Institute of Technology and Science, Karimnagar | CGPA: 7.61

SSC – St. Anthony's High School, Karimnagar | CGPA: 9.7

TECHNICAL SKILLS

- **Programming Languages and Web Technologies:** Python, Java, HTML, CSS, JavaScript.
 - **Database:** MySQL, DBMS, MySQL workbench
 - **Tools:** VS Code, Git, GitHub .
 - **Soft Skills:** Problem Solving, Analytical thinking, Team collaboration
 - **Languages:** Telugu, English.
-

ACADEMIC PROJECTS

- **Online University Admission System- Full Stack Web with Database Project**

Designed and developed a web-based admission management system by integrating Full stack web development and database to automate the student application.

- **AI Enabled Smart Home Automation for Enhanced Security**

Developed an intelligent home automation concept that integrates AI-based decision-making for improved security and appliance control. The system simulates real-time monitoring and automated alerts based on predefined conditions and reduce energy consumption.

- **Secure Data Sharing and Authorization for E-Healthcare System**

Created a secure healthcare data-sharing model focusing on privacy, authentication, and controlled access to sensitive patient records which increase security. Implemented role-based access control and structured database management to ensure secure storage and retrieval of information.

INTERNSHIPS & CERTIFICATIONS

- Python Programming Training – Completed structured training in Python programming covering core concepts such as data types, control structures, functions, and basic problem-solving using Python in YBI Foundation
- Full Stack Web Development – Gained hands-on experience in front-end and back-end development, including HTML, CSS, JavaScript, and basics of server-side development and database integration at Pantech Solutions AI
- NPTEL Course Certifications: Soft Skills Development, Internet of Things (IoT), Industrial Internet of T, Computer Networks
- YUKTI - Participated as a Team Lead in innovation-driven academic initiatives focused on problem-solving, idea development, and prototype-based project work aligned with real-world challenges.
